

LS-2018-105 Enhancing small ruminant production to benefit farming families in Sindh & Punjab

National Workshop on Strategies and Issues in Pakistan's Goat and Sheep Sector

حکومت سندھ
Government of Sindh

Workshop Objectives

1. Share research findings to highlight constraints & opportunities
2. Present & discuss practical methods for improving on-farm production linked to small ruminant value chains
3. Share and discuss approaches to inclusion for women farmers & smallholders generally
4. Share methods, findings for supporting small goat & sheep farmers in Pakistan

Enhancing Small Ruminant Production to Benefit Farming Families in Pakistan—Project Objectives

1. Health & production

- Develop & test improved production practices to increase growth and off-take of small ruminants

2. Family roles & benefits

- Create opportunities for families to derive more benefits from small ruminant production & marketing

3. Value chain engagement

- Develop & test strategies for farming families to access market opportunities and attain market specifications

Project Impact Pathway

Manage Nutrition

- Simple, practical strategies for families to improve growth

Address health & mortality

- Reduce wastage with practical solutions to common problems

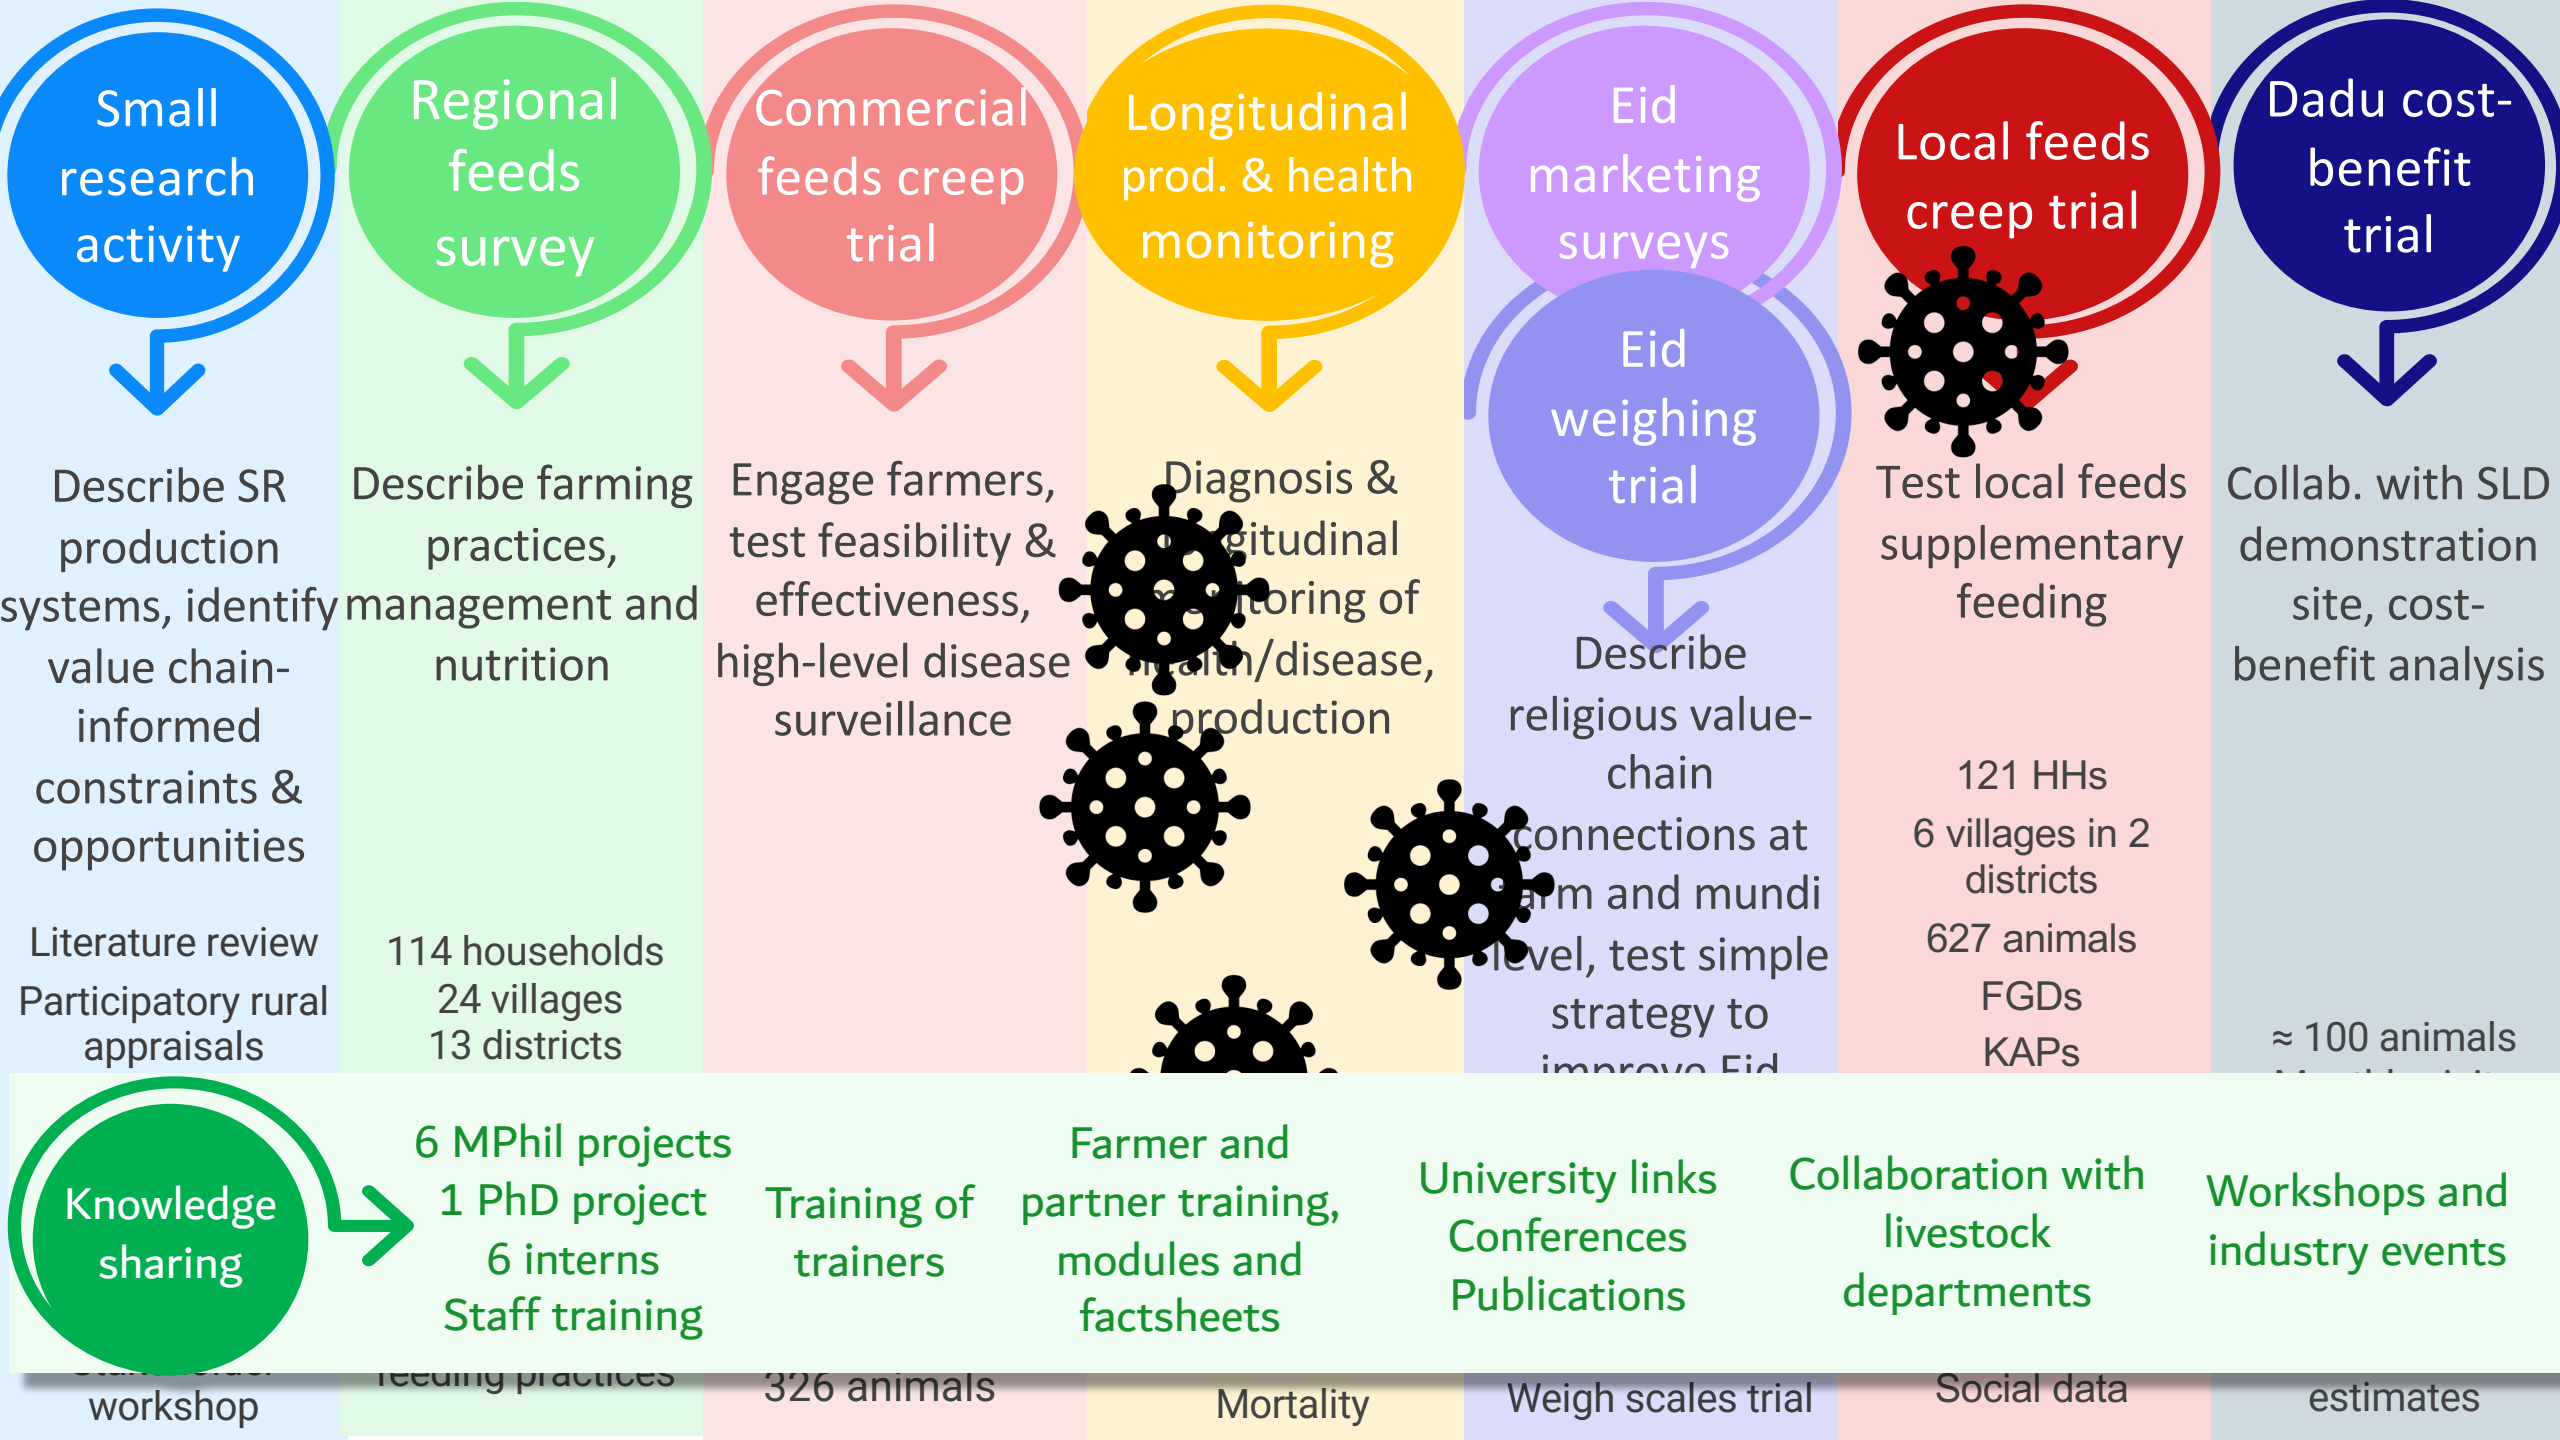

Strong value chains

- Link improved production to markets

Opportunity for all societal groups

- Practical & accessible to support families' needs

Create more opportunities for smallholders & goat/sheep sector
